

Question

Are tryouts required? What if my dancer was previously on a competitive SPARK team?

Answer

Yes, tryouts are required for ALL dancers who wish to join the SPARK All Star team for the 2023/2024 season. Dancers who were previously on a competitive SPARK team are required to try out as well.

Question

What if my dancer is unable to be at tryouts?

Answer

Let us know! We will do our best to make sure all interested dancers have a fair chance of placement on our competitive team.

Question

Do all dancers who try out make the team?

Answer

We make every effort to accept all dancers who show passion, energy, and a strong desire to dance and compete. Placements will ultimately be at the discretion of the SPARK All Star team staff.

Question

Will SPARK have any other competitive teams like they have in previous years? Like the Junior Wolves or Junior Raptors?

Answer

At this time, we have chosen to disband our school specific competitive teams to form one single competitive team - the "SPARK All Stars".

Question

What style of dance will the SPARK All Stars compete in?

Answer

For the 2023/2024 season, dancers will have the opportunity to compete in *either* pom OR hip hop. Following tryouts, dancers will be placed in one routine or the other.

Question

What if my dancer doesn't want to do one routine or the other? Do we have a choice for which routine they are placed in?

Answer

Yes! During registration, dancers will be able to select which routine they would like to try out for. They can choose between pom, hip hop, or either.

Question

I'm confused about game day. Why are they learning a game day routine if they won't compete it?

Answer

The game day routine serves multiple purposes for our competitive team. First, it provides an opportunity for all dancers in both routines to interact, grow, and learn from one another. Second, game day includes skills that are invaluable for dance teams to continually practice including: energy, sharpness, levels, projection, confidence, and more! Third, game day helps dancers learn additional skills (outside of their pom or hip hop routine) that they will carry on to their high school dance team
